WEST TEXAS AND SOUTH- ERN METHODIST UNIVERSITY

Rev. J. W. Hunt the district commissioner, to raise funds in the Sweetwater District for the Southern Methodist University, states that there have been \$10,000 in round numbers raised in the district and that the people of the Northwest Texas Conference have paid more per capita than any other part of the state. There are yet several thousand dollars to be raised for the institution and Dr. Hunt was called to Westbrook this week to present the matter to the people there.

Manager of Railroad Cured of Eczema by Hunt's Cure.

At one time I had a very bad case of Eczema. It troubled me for seven or eight years, and, although I tried all kinds of medicine and several doctors, I got no relief until I used Hunt's Cure. I used several boxes, and it finally cured me, and I have always kept a box with me for fear it will come back.

HAVE THEM COME AND SEE

West Texas has been misrepresented and misunderstood until a prejudice has grown up in other parts of the state that will require some effort to remove. When Seary county reports a cotton crop of 8,000 to 12,000 bales (these people over there set the idea that this is not a cotton country. We ought to show them the figures and unless they are of that class that will not be convinced, they will see their error.

Take one of the rich black land counties, all of which is in cultivation and having a population of 30,000 people. Their area is a third to a half mile to the acre, or ten and a half miles per capita of population.

In Seary county where not more than 20 per cent of the land is in cultivation, we grow from 8,000 to 12,000 bales in bad years and present conditions this year promises more than that much.

A presentation of these facts to the home owners may cause them to break through their prejudices and come and see.

NEW FARMS IN SEARY COUNTY

Texas News Service.—Eighty three new farms are opened up in Seary county every year and the latest Federal census reports which are based on data gathered in the spring of 1915 show a total of 1424 farms in this county at that time. In 1900 we had 586 farms. We have a total of \$11,913,424 invested in farm property and our farms are worth \$7,725 each including equipment.

The total number of farms in Texas at the date of last census was 117,770 having increased 65,580, or 55 per cent during the past decade. The value of all farm property in the state is \$2,218,645,000. The average Texas farm is valued at \$5,217.

THE MINE WAR IN WEST VIRGINIA

The strike situation in the coal fields in West Virginia finally reached the war stage. The strikers became so intent that the country was placed under military rule. Congress has taken the matter up and investigation is showing that the miners actually residing there acted in self defense.

Among the first things found out were that the working scale for the West Virginia mines were fixed abnormally high by the head unionists and operators in Pennsylvania, so those mines would be closed from competition with other fields.

The miners were called off when the mine owners refused to pay the advance.

Guards were placed in the district and their conduct incited the strikers to violence and now, ex-Gov. Glasscock says it was necessary to call out the militia.

This is the happy time of snap beans and dewberries. Cucumbers and water melons are coming.

TENANT FARMERS MAY OWN THEIR HOMES

There is vastly more in that coming convention of Renters to be held in Fort Worth on July 18 than some people may think. Tenant farmers in north and Central Texas have seen the stipulations drawing tighter on them from year to year until they find that their labor is netting them no profits. They have tried working and demanding more favorable contracts and that has not brought relief.

In many communities the farm owners have let their farms to negroes on the share plan and white people have had to move out.

These conditions have caused the tenant farmers to do some independent thinking. They know there are thousands of acres of good, productive land in West Texas, to be bought at low prices and on easy terms and at last they are turning toward the west.

It is their purpose to organize a company, pool their ability and buy up large bodies of land to be sold out in small tracts to farmers. That is a plan the Signal has been urging.

It would bring a number of desirable citizens and it would be well to get in touch with them.

Best Laxative for the Aged.

Old men and women feel the need of a laxative more than young folk, but it must be safe and harmless and one which will not cause pain. Dr. King's new Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by all druggists.

WHY INTEREST IS HIGHER IN TEXAS

Police Railroad says:

"The average farm loan in the United States bears 7.75 per cent per annum in the North Atlantic. In Texas it is 9.97. Certainly our securities are as good as the average, then why do we not get the same rate of interest? The equalizing of this loan alone will reduce the interest paid by the Texas farmers on their present indebtedness approximately \$5,000,000 per annum."

The above called to mind the short sighted policy of some of our leading people in opposing the investment of foreign money. We have people who advise against allowing outsiders to acquire stock in Texas enterprises. Such a policy will always tend to circumscribing the volume of money in Texas and thereby increase that in proportion as money increases, interest will be high. There is an abundance of money in the east and if we will encourage it, certainly here, we will get cheaper money.

Several gentlemen from Snyder attended court in Lubbock last week and it is said that when they arrived in the Santa Fe station they all got off the train but one. One gentleman was missing. After the train pulled out the conductor approached the missing member for his ticket. He was accused of a deep reverie and said "yes, have my ticket." He told the conductor that he bought a first class ticket to Snyder. The punch man assured him that he knew about that, but he wanted his ticket now to some other point. This brought the contention to a head and the Doctor was permitted to disembark and walk in from the east part of town.

Candy Factory The Snyder.
G. M. Jones, a practical candy manufacturer from Kalamazoo, Texas, has recently located in Snyder and is making an good candy as can be bought anywhere. It is his aim, if possible, to encourage the local candy business and do a general jobbing business.

There are apparently two counts in the indictment brought against the miners of West Virginia by a Federal Grand Jury. One is that they conspired with mine owners of Ohio, Illinois and Indiana to demand such an advance in wages for mining coal in West Virginia as would render West Virginia operators unable to compete with those of the other states named. The other count is that of having attempted to create a monopoly of the labor market "by fixing prices and refusing to allow members of the organization to work at lower wages."

A Double Hen Egg.

Mr. F. M. German showed the Signal a few days ago, a curio in the way of a hen egg of unusual size in side of which was another perfectly formed egg covered with a hard shell.
